

Construction Quality Management

**US Army Corps
of Engineers®**

This 1 day intensive program offered to you by Associated Builders & Contractors and the Corps of Engineers focuses on the Corps system of quality management. **This class is a necessity for companies working with the Corps or who wish to do business with the Corps.** The second part of the seminar will focus on QCS (Quality Control System – contractor’s version of RMS) please bring a lap-top to the class if you do not have one an ABC laptop will be provided to you for this portion. We will be loading a sample program on each computer and let everyone practice operating QCS.

TOPICS INCLUDE

- Corps policies & procedures
- Accident Prevention Plan
- Hazard Analysis
