

LEAD RRP

Renovation Repair Painting

The EPA's new RRP Lead Paint Law will be in effect **April 22, 2010**, but you don't have to worry.

Getting certified is easy!

Common renovation activities like sanding, cutting, and demolition can create hazardous lead dust and chips by disturbing lead-based paint, which can be harmful to adults and children.

To protect against this risk, on April 22, 2008, EPA issued a rule requiring the use of lead-safe practices and other actions aimed at preventing lead poisoning. Under the rule, beginning in April 22, 2010, contractors performing renovation, repair and painting projects that disturb lead-based paint in homes, child care facilities, and schools built before 1978 must be certified and must follow specific work practices to prevent lead contamination.

For more information please visit <http://www.epa.gov/lead/pubs/renovation.htm>

When: April 1, 2010
8:00 AM - 5:00 PM

Where: ABC Office
1995 Nonconna Blvd.
Memphis, TN 38132

Cost: ABC Members: \$250
Non Members: \$300
